

PRODUCT DATASHEET

WeeTect Flexible Mirror (WFM)

WeeTect flexible mirror (WFM) is made from Mylar mirror or thin flexible mirror sheet. It offers good mirror affection, flexibility, optical clarity, light weight and can be simply packed as a roll which is easy for transfer. It is popularly used for Mylar dance mirrors, decoration, and anywhere people don't like dangerous, heavy and breakable glass mirrors.

With superior performance for manufacturers or companies in high-end mirror business, WeeTect helps your business reduce significant costs with a long life guaranty. WeeTect flexible mirror (WFM) is applicable to signage, artwork, signage, decor and photo studios, displays and more. It should be applied with double-stick tape or spray adhesive.
